

PRZS-5H 汽车暖风机平衡机 PRZS-5H Automotive Heater Special Balancing Machine

简要说明 / Brief Introduction

■ 本机广泛应用于汽车暖风机类产品的平衡校正。

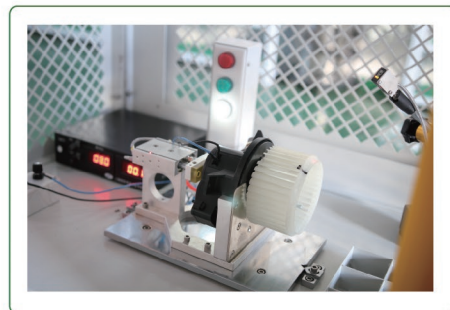

本机采用上海剑平最新技术，软件采用JP-800系统，具有操作简洁，应用方便，精度高的特点；适用于批量生产。

● It is widely used in Automotive heater products balance and correction

The machine use shanghai jianping the latest technology , the software use JP-800 system, has the characteristics of simple operation, convenient application and high precision, and it is suitable for online production.

产品特点/ Features

1. 全新迭代JP-800电测系统：12寸触摸屏
1. New iterative of JP-800 electrical measuring system: 12-Inch Touch screen
2. 添加开机点检功能，保证准确性
2. Add boot check function, ensure the accuracy
3. 对产品进行合格打标，省时方便
3. Qualified marking ,save time and convenient
4. 安全门与安全光幕的设计，安全更有保障
4. Design of the safety door and the safety light curtain, more secure
5. 声光报警，直观醒目
5. Audible and visual alarming , Keep a view
6. 特殊设计的软支承测量摆架，精度极高
6. Special designed soft-bearing test supporting brackets,with high Precision
7. 气动夹具，工件安装更快捷
7. Pneumatic fixture, faster installation

机台参数 Parameter

工件质量范围 Max. mass of workpiece	kg	5(含夹具) Clamp included
工件最大外径 Maximum diameter of workpiece	mm	300 Adjustable
平衡转速 Balancing speed	r/min	可调 Adjustable
最小可达剩余不平衡度 Min achievable residual unbalance amount	g.mm/kg	≤2
不平衡量减少率 Unbalance reduction rate	U _{RR} (%)	≥90%
工作气压 Working pressure	Mpa	0.45-0.6
工作电压 Operating voltage	v	AC:220V
系统 system		JP-800
安全防护 Safety cover		自动门 Automatic cover
软件界面 software interface		威伦通12寸触摸屏 12-inch touch screen from Weiluntong
外形尺寸 Dimension		1350 × 2040 × 750(mm)

立式钻孔全自动平衡机
