

立式铣削全自动修正平衡机说明 Vertical washing automatic correction balancer

产品特点 / Features

1. 动平衡检测与自动修正
 2. 动力头可自动上下，调整去重位置
 3. 自动吸铁屑功能
 4. 可增加气动打标功能、扫码功能
1. Dynamic balance detection and automatic correction.
 2. The power head can be automatically moved up and down to adjust the weight-removing position.
 3. Automatic sucking iron chips function.
 4. Can increase pneumatic marking function, scan code function.
